

Mist360™

The Mist360™ is our newest product - providing unparalleled cooling, even in humid environments. Available in standard white or custom-wrapped to match existing decor, The Mist360™ successfully cools 300+ square feet, and is perfect for cue lines, patios, waiting areas and walkways.

MistAMERICA's **SHADE STRUCTURES** add a sleek look to any outdoor area. Our Sails and Umbrellas are available in high-wind and fire proof fabric. We design our products to meet your needs. Custom options include color, size, fabric durability as well as Mist and Heat.

FOG EFFECTS are used to create stunning visual accents, enhancing Attractions and Rides with breathtaking sights and sounds. Our Fog Effects can help to create the perfect atmosphere, stimulating the crowd with specific sounds, backlit fog and aromatic scents.

MISTING SYSTEMS ~ MistAMERICA's custom designed type 316L Stainless Steel Mist Systems deliver the finest quality of Mist possible, utilizing state-of-the-art mist nozzles for maximum cooling with minimal clogging. Our Mist Systems will greatly enhance your customers experience by providing efficient and effective cooling in your designated areas.

Radiant Heaters

Our Heaters are 75% more cost effective than gas, UL- Listed for Outdoor and Indoor use and are easy and inexpensive to operate. Our Heater products are perfect for all Amusement Park Areas, removing the chill in the air to keep your customers comfortable and warm, and at your park!
